

Love what FreeBSD® has done for your organization? Send us your testimonial!

Does your company use FreeBSD to great success? Help us spread the word about The Project by submitting a company testimonial. Not only will you be helping further awareness of FreeBSD, but your testimonial will include links back to your company and will be showcased on the new FreeBSD Foundation Web site homepage, testimonials page, and at least once in our monthly newsletter.

Testimonials are typically written by a Director or VP and include the following:

- Why you use FreeBSD
- How you have benefited
- Why the reader should donate money to the Foundation or contribute to the Project.

The FreeBSD Foundation is dedicated to supporting the FreeBSD Project through donations solicited from individuals and businesses and used to fund projects that further the development of the FreeBSD operating system. Testimonials are a vital part of our fundraising drive. We hope you'll consider helping to increase the evolution and the popularization of FreeBSD by writing a testimonial today!
